

Need Help with your Photography?

Sevenoaks Camera Club would like to help, wherever possible, by getting experienced members to assist new or existing colleagues with their photographic work.

If you could indicate below the area you need help with, it would enable us to decide who might be the best person to assist. And there may be more than one person with the same wish list.

Obviously, subject matter will always be personal to each photographer, but we have tried to categorise potential help areas:

Help with technical/camera-related issues at the taking stage.

What make/model is your camera? Describe what it is you are trying to achieve or the problem you wish to overcome.

Help with post-capture issues / computer processing of your images.

Which software package are you using? E.G. Photoshop Elements, Photoshop full programme, Lightroom, Other packages (be specific). Which Computer system are you using – PC or Mac? Describe what it is you are trying to achieve or the problem you wish to overcome.

Help with preparation of files for PDI competitions.

As above, which computer & software package(s) are you using?

Help with Mounting Prints for competition purposes.

Please outline the assistance you require.

Anything else????

I understand that the search for someone to help me will not reveal my name to all Club members, but I agree that my name & details will be shared with the club member(s) offering to help.
